Required to Partition Off Electric Vehicles When Servicing? We Have a Solution!

The VISITRON utility retractable belt stanchion is the only post on the market with a 30' belt extension. This rugged, outdoor-rated post is built to withstand the harshest environments. The longer span reduces the cost of buying multiple posts to do the job of one PM412-30.

Key Features:

Outdoor-rated, heavy duty industrial product. Longest spanning **RETRACTA-BELT** stanchion — just one post covers the same distance as multiple other posts. Fewer posts to buy, fewer posts to setup and store.

High-impact polycarbonate material greatly increases durability for a long life.

E-Z Back braking system creates the safest post on the market. Patent-pending rotary damper technology ensures a safe, controlled retraction of the belt at ANY length.

30 lbs. heavy baseweight for additional stability with large signage, especially outdoors.

Weatherproofed baseweight with molded, rubberized floor protectors.

Industry-leading Ten Year Warranty.

RETRACTA-WHEEL Base Features

Simply angle the post to conceal the wheel beneath the base.

①

Transport posts easily when the wheel is exposed.

②

Simply tilt the post to flip the wheel under the base.

③

The wheel stores beneath the base when not in use.

④

No unsightly wheels or tripping hazard.
